

ARACO FAST L

Accelerating Admixture

Product Description

ARACO Fast L is a liquid accelerator for cementitious mortar and concrete used to achieve faster construction process.

ARACO Fast L does not contain calcium chloride or any other intentionally added chlorides and will not initiate or contribute to corrosion on steel reinforcement present in the concrete.

Standard Compliance

- ASTM C-494 Types C.

Applications

ARACO Fast L is recommended for use when producing high quality concrete and dry mix mortars while accelerating setting time at moderately low temperatures.

- Accelerating Admixture to dry-mix mortars or shotcrete
- Accelerating for cold weather concrete.
- Accelerating Admixture Prefabricated concrete.

Advantages

- Increased early strength
- Increased frost resistance
- Faster construction process
- Low temperature

Characteristics

Composition	Polymerized agent
Appearance	Transparent liquid
Specific Gravity	1.25±0.02
Chloride Content	Nil
Storage condition	Store In a dry shaded condition, at temperature between 5°C and 35°C
Shelf Life	Original Sealed container has a shelf life of 12 months if stored in the right conditions

Package: 20l/200 lt. flow bins Bulk

Dosage: 1 to 3 % by weight

Safety Instructions

The product may cause skin irritation. Wear gloves and goggles and apply barrier cream to your hands. In contact with eyes or mucous membrane. flush immediately with plenty of warm water and seek medical attention without delay.

Legal Notes

The information, recommendations, and application are based on ARACO current knowledge and experience of the products when properly stored, handled, and applied under normal conditions. ARACO products are guaranteed against defective materials and manufacture and sold subject to standard conditions. Users should always refer to the most recent technical data sheet for the product concerned, copies of which will be supplied on request.
